**SAD TRUTH -- by Judge Dale**

## **SAD TRUTH**

**By: Judge Dale**

**While I'm pointing a figure at the intelligence level of the American public, I wish to add this little FACT:**

**The Dinar Guru's are being or have been threatened by the Government or the Federal Reserve System with felony arrest, should they publish the Revaluation of Currency and a Rate, which is premised upon the idea that this can some how be construed as, "INSIDER TRADING"? REALLY?**

**This is certainly a sad state of affairs especially since 90% of the American Public has been so horrifically dumbed down by our politicians; educational system and media, that they do not know the difference between Legitimate Investment and Insider Trading?**

**So ... allow me teach you the difference:**

**An [Investment] is based upon speculation, as in this case, of a currency revaluation, is not an Inside Trade! This is a Legitimate Investment!**

An [Inside Trade] means that some investor has received [secret corporate information] that two companies are about to merge (or) a company is about to release a new product, which will double the corporate assets and as such, the value of the corporate stock is expected to split or double! The investor who then purchases a truck load of stock in either company, based solely upon this [secret corporate information] is guilty of felony Insider Trading!

NOTE: It did not take a genius to realize that when the US Military petitioned to "devalue" the Dinar, prior to DESERT STORM, that one day the Dinar would "revalue" once again!

Currency Devaluation: Is an offensive tactic designed to attack the economy of a country, while attacking them militarily!

This is speculation and is a "Legitimate Investment" and not some secret corporate information or "Inside Trade"!

#### [FOR YOUR FURTHER EDIFICATION]

1] Maliki has never been a good man and is George W. Bush's man in Iraq. The Bush Family, if you remember, is responsible for exporting crude from the Middle East, in order to drive up the price of oil in the United States. Maliki was appointed to head up the new government of Iraq by George W. Bush, which means that George and his father, get to control what happens with that country as long as Maliki remains in charge!

Hence, the reason for the recent NO CONFIDENCE VOTE by the new Iraqi Government!

2] Considering the fact that the Middle East consistently votes against the United States on 78% of United Nations proposals, it was important for the Criminal Cabal to gain a foothold in the Middle East!

Hence, the continual CIA staged Middle Eastern conflicts; the theft of Gold from Iran and the appointment of Maliki!

3] The private corporate Communist Federal Government for the United States; the ad-hoc President, Obama; the Israeli owned private corporate Federal Reserve System and the Bilderberg Group, do not want the World Revaluation of Currency [Basil III] to succeed because it will destroy their FIAT Corporations; their Control and FIAT Currency!

Hence, the European Union [EURO] is about to collapse and the [US DOLLAR] isn't far behind! [i.e.] The US doesn't need the Dinar or the Dong to revalue, we investors do! Whenever the US Federal Government needs money, they simply print more [called counterfeit] and add it to the National Debt balance [called debt perpetuation]!

4] The Dinar is already a Basil III currency. The release of its value is being blocked by the Obama and Maliki on orders from the Cabal! These people are not your friends. They will murder you and sell your children in a moment's notice, if it profits them! They are the Devil's Disciples and actually participate in satanic rituals!

5] If the exchange RATE of a revalued Foreign Currency comes in high, it will have a ZERO affect upon that countries economy! [e.g.] If [1] Dinar exchanges for [60] Federal Reserve Notes; that means that the US Dollar is completely valueless in comparison to the Dinar! Basil III does not lie! Politicians and Governments lie!

Hence, the EURO and the DOLLAR is only valuable as long as the people can be fooled to believe that they have value and truth is what scares and panics the Criminal Cabal!

YES...our Federal Government is the military arm of the Cabal; London is the financial arm of the Cabal and the Vatican is the spiritual arm of the Cabal! All three are separate FOREIGN GOVERNMENTS who have combined together to dominate the

**WORLD! They only have power and control as long as they have the funds to facilitate and bribe. Their demise is more important than you controlling millions of worthless FRN's!**

**If you people don't understand and accept this simple truth, your future; fate and the fate of your children will be sealed in death and slavery! Love each other and yourselves and not that which is Caesar's ...**

**If my statements have offended anyone or group of American's, "suck it up" because that is what I intended!**

Ah Judge Dale, great message. It made me think.

For the insider trading, I think it's closer to what happens when someone pushes penny stocks, and they make out with the proceeds from the purchase even as the stock doesn't move as they had pumped it to the public.

The public is left holding penny stocks until the company either produces a profit making the stock rise, or the company goes under or they get tired of holding it and dump it for less than they paid for it.

The second point that made me think was, yes, the value of the investment that people aren't so sure of.

Just watching gold, if 1 oz used to sell for \$400, and now 1 oz sells for \$1600, that means the gold is worth more than the money used to purchase it, and at some point you'd have to be crazy to sell your gold for worthless currency.

1,000,000 dinar for 1170 U.S. dollars, means it takes a lot of Dinars to get 1 U.S. dollar.

As they post that they can turn in 1 Dinar and get 10 U.S. dollars or that the rate is as high as 1 Dinar for 30 U.S. Dollars; it's clear where the value lies.

I would give something of value in return for a lot of something that is worthless and worth less every day that progresses because I live in that place where the currency is

worth less and I will have to spend that worth less currency and the Dinar would have been my stored value of wealth, just like gold would have been someone else's stored value of wealth.

As with all investments, some research before entering, and if there is no research materials, it's at the investor's own risk.

Funny thing is, I don't see any risk in owning Dinar, unless you have the old currency that is out of circulation, you are probably holding a stored value of wealth and when you need the money, you can do the conversion into your currency and purchase what you need.

This article really made me think.

Disclosure: I do not have any Dinar.

Well said - the truth is finally being told. The dinar hopium reminds me of the prosperity program hopium we used to read - how much longer are these so called guru's going to believe this BS?

People invested in the dinar and prosperity programs to make a buck. There is no buck to be made and it is all hype. Be sensible folks - no one is going to give you a million dollars for a small investment. Ain't gonna happen - The bad boys will make sure of that.

How can you read the entire article the come out with that slant on it? Hmmm, troll?

Currencies fluctuate on a daily basis just like stocks and commodities do, enabling those who know the ins-and-out to make a good profit. Many people make a good living on just trading stocks, currencies and/or commodities. Duh! That's why we have stock markets and commodity exchanges, casas de cambio and banks. I have a friend who has done very, very, very well just exchanging the the little old peso! Don't knock it!

Mr anonymous, are you kidding me? You compare everyday trading to this "Dinar thing"? Your friend has never ever made and never ever will make 500,000% profit on one trade, that should tell you how "reliable" this dinar thing info is. You can buy dinars for \$40.00 and cash it out for \$200,000.00, oh pleeeese. It's possible if US currency is in hyper inflation for a year or two when milk costs \$20,000.00/gal.

Anon 9:50, The Judge didn't say the Dinar investment wasn't real. It's because it's real that the Gurus would be charged. If it wasn't real there could be no crime that the government could claim. Ken

Judge Dale knows some things not many folks would be privileged to be in the know of, because Judge Dale is familiar with the Admiralty Maritime illegal mafia system of judging you, based upon what you say can and will and is being used against you, throughout your entire life, NOT just in a courtroom. And you don't understand what that means.

However intellectual, this timeline does not include anything to do with doom and gloom or catastrophic disastrous scenarios.

This timeline is out of the box of your regular scheduled mind programming going on in your head 24/7 since the time of your birth and before.

It all turns out absolutely wonderful, but in your mind programming, anything that is presented too good to be true is a foreign affair and is rejected and denied as being anything real.

You folks are in quite the perplexing circumstances in your minds. You don't know what to believe, that idea was all taken care of for you in the very beginning.

This whole timeline is a galactic agenda. Period. You cannot begin to wrap your minds around that idea and what it really means. You have been intentionally distracted living in a sea of chaos and confusion and are unable to be certain about anything.

This is why the best is saved for the last, at the very last minute. To get the attention of your mind where you could never do it before on your own.

The incredible amount of information that is about to come at you none stop, is designed with the element of surprise with an extreme shock value to it that will command your strict attention from then on.

The reason for that is so you may learn something new that has been very foreign and unfamiliar.

You cannot do that right now because the pay is not too good and you would not agree with the circumstances required. It's groundhog day where nothing goes nowhere fast and everything stays the same.

I am very interested in not only your comments but from what you are drawing your information from. It seems to me that you are aware of much more than you divulge. You mentioned the entire timeline being a galactic agenda. This intrigues me. Would you mind extrapolating a little on that concept? I thought Judge Dale's comments were very enlightening and informative. My primary drive is always to gain more knowledge of the way things really are and cut out the superfluous confetti that is so abundant in all that I learn from others. Please, I am interested to know what you know about the "out of the box" concepts that you mentioned.

**Retired Judge gives history lesson**

THE DINAR & DONG / RV / BASIL III COMPLIANT

Remember the old PROVERB: 'Knowledge is power?'

Well all of you Dinarians need to 'power-up' and understand a few things that these Internet Guru's obviously do not! The RV [re-value] isn't just about Iraq and the Dinar or Vietnam and the Dong.

The RV is an international matter, which does NOT necessitate, require or focus upon Maliki or Shabbi's permission or the United Nations approval or acknowledgment.

For those of you who do not research history, government, law and politics: The Puppet Master pulls the strings and call the shots of the Criminal Cabal and have been in control of the United States Corporation since 1913.

'Those who do not know their past are condemned to repeat it.' George Santayana

The Chinese have NO designs on World Domination and still they are responsible for championing the RV internationally. Seventy-one Countries opposed the RV because it meant the destruction of their FIAT based currency and government. All of those Countries are United Nations members. Now isn't that curious?

The balance of the 194 Countries who are not United Nations members, voted in favor of the RV because they are tired of selling their goods and services internationally in exchange for worthless paper [or] script, a/k/a FIAT currency!

The RV is all about forcing all Countries who wish to trade internationally, to make their currency [asset backed] or BASIL III compliant!

BASIL III means currency guaranteed by gold, silver or some other measurable asset accountability: [e.g.] NO MORE Bonded Promissory Notes drawn against government issued birth certificates [or] currency backed by counterfeit Liens [or] Bonds simply created out of thin air, which is the reason why the Euro is on the verge of collapsing right now!

You all know about America's NATIONAL DEBT and heard the arguments about how our government leaders have squandered the labor and assets of future generations for centuries to come!

Now here's the truth about that argument: America is a FIAT or debt based government and economy, and in order to stabilize a FIAT system, it is

necessary to PERPETUATE DEBT and never pay it off! Hence, the reason why Congress refuses to be held to a balanced budget and the reason for our military involvement in so many foreign wars! Even a high tax structure helps to perpetuate debt, Especially when 100% of your tax dollars are exported out of the United States! And I bet you thought your taxes ran the government and wars were all about stopping Communist aggression! In the minds of our government leaders: 'War and taxes are good for business!' Spoken like a true sociopath!

Debt represents a negative number and in America, debt is perpetuated with the use of promissory notes called: 'Federal Reserve Notes.' The Federal Reserve is neither Federal nor is it a Reserve. It is a privately owned foreign corporation and is also known by the name: The Bank of International Settlements. The Federal Reserve Corporation is owned and controlled by a group of Sabbatean Bankers based in Israel.

The NATIONAL DEBT is a trick bookkeeping entry, which does not involve any real assets because a real asset entry would immediately cancel the debt. Under the Uniform Commercial Code(UCC), promissory notes such as a Federal Reserve Note, is defined as a: 'Negotiable Debt Instrument' and so the National Debt of America is based entirely upon these negotiable debt instruments. In retrospect, America's National Debt can be canceled at any time with an asset bookkeeping entry and the payment of one dollar of solid gold or silver!

A positive cancels a negative, even when the negative is in the trillions. It's basic Algebra!

I sent this to a friend of mine and he questioned my math because he is old school and my math didn't make sense to him! So I wrote back to him with this example and explanation:

IF you add -1 and +1 what is the sum? The answer is 0 because each cancels out the other.

Now if you add -34,000 and +1 what is the sum? The answer is still [0] because each cancels out the other.

Here's the trick: -1 can be broken up into -35,000 pieces or more but when all those pieces are glued back together, you still have nothing more than the original +1. In Mathematics,  $0 = 0$  and anything less than 0 is still 0. Algebra on the other hand, dissects that result and theorizes the possibility of negative numbers having values. The National Debt represents negative numbers that appear to have values!

The Federal Reserves bookkeeping system conceals this simple truth, which is also known as 'debt slavery' and to complete their circle of fraud and slavery, the American public must be trained to believe that 'Federal Reserve Notes' have real value! This was accomplished by and through forced public education! Our government officials concluded that under these conditions the American public could be taught to believe anything we choose and our Licenses and Diplomas are proof of their success!

PS/ Don't look in Fort Knox for that gold dollar because there isn't any gold there! America's gold was embezzled by previous federal government leaders during their planned Great Depression of 1933, however one dollar of any currency that is BASIL III Compliant can cancel the American National Debt and this is why the United Nations membership is so vehemently opposed to the international re-value of currency.

Many member Countries have attempted to instigate WWII in the middle east and Asia, in an attempt to head off the RV. [e.g.] The tsunami in Japan was created by the detonation of an under water A-bomb. Japan's political structure is in revolt and the new faction supports the RV and desires to sever Japan's alliance with the United Nations.

This new FIAT based government for the United States is the real reason why Franklin Roosevelt, issued a Presidential Order in 1933, that directed

all American citizens to surrender their gold during the Great Depression and why under the Federal Banking Act, the Constitutional control of America's currency and the US Mint was surrendered to the Federal Reserve Board and why under the Federal Coinage Act, it became unlawful for American citizens to own solid gold and silver and why all American coins are now plated with mixed alloys and filled with charcoal.

Only jewelers can own solid gold, if related to his trade and numismatists are permitted to collect and trade Silver Certificates; solid gold and silver, but the moment they offer any of these in payment of a Federal debt; they have committed a Federal Crime!

BASIL III shall eliminate the debt based strangle hold over America and shall cause all of the Federal Reserve Notes that our politicians and industrial leaders have stolen and or accumulated to instantly become as worthless as used paper.

Imagine Bill Gates and Mitt Romney being as poor as you and me!

The Iraqi Dinar and the Vietnam Dong have received the greatest amount of attention by and from currency speculators because both currencies have the greatest potential to generate huge dividends with the international RV. Both of these currencies had previously been devalued by the World Bank; the IMF and CBI by virtue of the international influence wheeled by the United States Corporation (government)!

The devaluation of currency is a military strategy designed to defeat a Country economically while attacking them physically. Iraqi Dinar's were previously worth 3.22 US prior to their devaluation but I'm not certain what the Dong was worth prior to its devaluation.

Iraqi History: When the new government for Iraq was installed and approved by the United Nations around 16 months ago, the very first action by the Iraqi government was to petition the United Nations to be

released from Chapter 7 Bankruptcy and request permission to freely Contract with other Countries once again. The United Nations agreed to both requests pending the submission and approval of a repayment plan for Kuwait and repayment of all other debts Iraq has accumulated during their occupation and reconstruction. Iraq submitted a plan, which was approved and the Bankruptcy was released and Iraq's first new Contract was with the Soviets, to supply Russia with ten trillion dollars worth of crude over the next five years!

All of the internal politics about Iraq that these Internet Guru's have been writing about has no bearing on the worldwide RV. Their recent comments and Intel about Iraq's Chapter 7 Bankruptcy and their repayment plan holding up the RV is old news and incorrect news. This is all Cabal propaganda and rhetoric being used to transfer attention from the Cabal to Iraq, while the Cabal re-groups and grabs at straws to block the RV and save their thousand year plan for World Domination!

None of this mis-direction will do the Cabal any good but does explain what the RV delay is really all about!

The WHITE HATS have a different plan and schedule in mind, which first involves the collapse of the FIAT governments by and through the international RV; the mass arrests of Cabal members for crimes against humanity; the installation of temporary governments and lastly the release of technology that has been withheld from us under the guise of TOP SECRET! This technology will destroy the oil industries strangle hold on all Countries foreign and domestic and will eliminate their lies and arguments to drill more oil wells in environmentally dangerous and protected venues.

PS/ Oil wells never go dry because Mother Earth methodically refills them as crude is pumped out! Wells can be pumped out faster than the Earth can refill them but they will all eventually be refilled just the same!

The WHITE HATS plan requires that the international RV occur first because the BASIL III compliance regulation will cause the eventual collapse the worlds FIAT governments and cancel their worthless counterfeit currency. So if you're eagerly waiting for the RV to occur, be comforted by the fact that 194 Countries are just as eager for the RV as you! Keep in mind that the Cabals mercenaries are not patriotic souls and do not work for free! If the Cabal cannot hire or pay for their mercenaries, who is left to protect them?

Speculation about the Dinar and Dong have caused most of these Internet Guru's to concentrate only on these two international currencies, absent any real knowledge or understanding about the RV. Their Internet Blog; member following and their personal ignorance, make them an easy mark for disinformation agents who frequently feed them useless Intel about the internal politics of Iraq and Vietnam. Have you ever witnessed any of these Internet Guru's discuss any of the historic; political; monetary or international facts or details I have just elaborated on?

Since the world wide RV is certain to collapse all FIAT based governments, why would any of these Internet Guru's ever recommend setting up any kind of bank account or trust at any of the Federal Reserve Banks? If they had any real intellect, these Guru's, should be recommending off-shore accounts in safe foreign venues. I believe one of these Guru's, actually used the term FDIC insured. For those of you who don't know, the FDIC went Bankrupt around 2006 and not one deposit entered into any Federal Reserve Bank has been insured after that date!

I even recall reading about some Guru recommending a special non-taxable, non-interest bearing, secured account created by Congress, called: 'Tag Accounts.'

Well, isn't that special because when the Federal Reserve and the United States FIAT government collapses; so does the monetary system and their regulatory laws called Statutes! i.e. Statues are actually corporate

regulations and NOT law! They can only be enforced against sub-corporations, which is why all of our names are all spelled out in capital letters! Still these people who claim to be Internet Guru's continue to offer other investors such irresponsible and ruminant counsel ! Worse still is the fact that there actually are Dinarians in our society who are prepared to blindly follow their stolid advice and risk losing it all!

The only positive comment I can write about these Internet Gurus is that they do perpetuate the American dream and daily bring a small ray of hope into the lives of a people and culture who certainly deserve something better.

Blessings, Judge Dale, retired
